700

The 700 is designed to be fast and efficient. A low, aerodynamic body position and lightweight vertebrae-spaceframe put the rider in the perfect position to generate power and speed. The 700c Thru-Axle rear wheel offers excellent power transfer, and high gearing gives you the shifting options needed to reach your personal best. Simple and thoughtfully designed, the 700 is engineered to move.

Frame & Geometry

	US		metric	
Wheel Base	46	in	1168	mm
Wheel Track	27.5	in	699	mm
Total Width	31	in	787	mm
